

## Moulton Parish Council Community Transport Questionnaire

Recent cuts in public transport means that, at present, we have one bus route servicing the village, the X10. We are working with Northamptonshire County Council, Daventry District Council and potentially other local parishes and community stakeholders to try to improve the quality and quantity of community transport available to supplement the lack of public bus services.

**In order to develop the right services, Moulton Parish Council need the views of all residents, whether you are a bus user or not.**

At present, we have the use of a community minibus every Friday which is used to transport residents without transport to and from the community centre to take part in the activities organised here. As well as using their own car, people use car share schemes, taxis, cycles, and there are volunteer drivers who kindly take people to medical appointments.

We will be investigating using developer contributions to provide an extension to our services using transportation methods including minibuses which will be Disability Discrimination Act compliant.

This questionnaire will help us determine whether improvements to the network would be welcomed and what particular services people would like.

Your views are important and will be carefully considered.
